

There should be no inconsistencies between information furnished under regulatory/statutory reporting and the banks' own MIS reporting. Banks are also advised to have system generated segment wise information on non-performing assets and restructured assets which may include data on the opening balances, additions, reductions (upgradations, actual recoveries, write-offs etc.), closing balances, provisions held, technical write-offs, etc.

Yours faithfully,

(Deepak Singhal)  
Chief General Manager-in-Charge
