All Scheduled Commercial Banks

Dear Sir/Madam,

Prudential Norms for Classification, Valuation and Operation of Investment Portfolio by Banks – Spreading of MTM losses and creation of Investment Fluctuation Reserve (IFR)

Please refer to our <u>circular DBR.No.BP.BC.102/21.04.048/2017-18 dated April 2,</u> 2018 on the captioned subject.

- 2. Some banks have enquired whether IFR, forming part of General Provisions and Loss Reserves, can be reckoned as Tier II capital only to the extent of 1.25% of total credit risk weighted assets.
- 3. It is clarified that there is no such ceiling for IFR.

Yours faithfully,
